Print/Email/Course History

Just above and to the right of the student card, you will see the following icons.

PDF/Print feature: allows you to create a pdf of the audit to either save or print.

Email option: opens an email pre-addressed to the advisor selected.

Course History

The third icon (vertical dots) lets you view a "course history."

The course history is formatted like a more traditional transcript as yet another tool to use. Note that no term or cumulative statistics are included and this should never be used as a substitute for an official transcript.

Electives, Not Used, and In-Progress Blocks

The "Electives" block listed courses that still apply toward the undergraduate degree but are not used to satisfy any requirements. Graduate Students should consult with their advisor for courses in this area.

The "Not Used" block lists courses that will not count toward the degree or any declared programs (typically W, F, Audits, or repeats).

The "In-Progress" block lists all active registrations in a convenient location for reference.

For information on ordering official transcript please go to the Registrar website. If you have any questions about this audit please email the Registrar's Office.

What-If Functionality

You can use the what-if functionality to select a program that is different than what the student has officially declared. The option does NOT save the program, rather it is a temporary adjustment so you can review how the student's courses apply to the new program. The what-if audits can also be used by students. You can also use this option to see how future courses would apply to the student's current program. Select the "use current curriculum" option and then insert courses by entering the subject and number and then clicking the "add" option (you may enter as many courses as you want). You will see the future courses on the audit in blue with the word "planned" where the term is usually listed.

When using the what-if feature, you need to enter all the required fields as noted by the "*": this includes Catalog year, degree, level and at least one major.

The major, minor, concentration and track fields include all options that exists and are NOT filtered (at this time) based on what is acceptable for a student's program. For example, all the concentrations are listed (graduate and undergraduate options), please be careful in making your selection.

Under the student card click the "what-if" option

Academic   What-If

Select the data elements you want to include on the what-if audit. Click the "current curriculum" option if you only want to use the "future classes feature.

You can also enter courses that the student is considering taking to see how they would apply to the audit. You can use this feature without having to change curriculum (see note above). Remember to click "add" after each subject and number combination you enter.

After you have entered your selections, click "process."
